SUBJECT: Electronic Filing System (EFS) Enhancements

PSLA is preparing several EFS enhancements that we plan to release in the near future. The enhancements are outlined below and can also be found in more detail on the [EFS New Features](#) page of our website and in section 6.8, Renew Filing, of the [Procedures and Electronic Filing User Manual](#).

**Late Filing Validation Error:** If the filing received date is more than 45 days after the Policy Effective Date a warning error will be displayed.

**Renew:** The Renew filing function calls up a new filing and pre-populates most of the fields based on the selected filing.

**View Renewal:** The View Renewal function displays the renewal history for the selected filing. Only renewals that were created with the EFS Renew function will be displayed.
